

How to Search for Foreclosed and REO Properties

There are four different ways to search for foreclosure and REO properties FlexMLS. The following steps outline the process. Keep in mind entering a property as a foreclosure or REO is not a required entry.

1. Start at Full Search. Select your property type and status. Click **Next**. Select your county(ies) and any other desired search criteria.

Please choose one or more property types. Please choose one or more statuses.

2. Click on the **Other** tab; next click the **Terms/Misc** link. This will display the options for this section. Select the checkbox for **In Foreclosure/REO**. Click the **View Results** link or **View Results** button to view listings on the Search Results screen. You also have the option of using the **Update** link to check if there are any matches before going to the Search results screen.
