

## Standard 24- Hour Hotsheet

The Standard 24-Hour Hotsheet, shows *all* activity in the county/counties selected over the past 24 hours. When you choose this option, you only have the ability to search by county. To select your desired county/counties, simply click your mouse in the **Select** field; you can select up to six counties at once.

This option will automatically go to the Search Results screen and display matches for all events that happened in MLS over the past 24 hours. You will be able to see all of the activity for all categories and statuses in the counties you selected.

**NOTE:** If you run the 24-Hour Hotsheet on a Monday, it displays the last 72 hours activity. This is to cover activity on the previous Friday and weekend.

Clicking any one of the Event links will take you to that section. The event will be displayed in the upper left corner

Hot Sheet For 5/19/2017 - 05/22/2017 work on behalf of a contact
