

## Standard 24- Hour Hotsheet

The Standard 24-Hour Hotsheet, shows *all* activity in the county/counties selected over the past 24 hours. When you choose this option, you only have the ability to search by county. To select your desired county/counties, simply click your mouse in the **Select** field; you can select up to six counties at once.

This option will automatically go to the Search Results screen and display matches for all events that happened in MLS over the past 24 hours. You will be able to see all of the activity for all categories and statuses in the counties you selected.

**NOTE:** If you run the 24-Hour Hotsheet on a Monday, it displays the last 72 hours activity. This is to cover activity on the previous Friday and weekend.

Clicking the Event drop-down menu will take you to that section. The event will be displayed in the upper left corner

If you would like to see entire hotsheet results on one screen, there are two ways to accomplish that:

1. You can select all listings in each category, and then click on the **Selected** link.

Select all listings using checkbox on that category's page, and then click the **Selected** link to view
